

Don't Take It Personally

**Well I thought that I might have
Everything you wanted
All you seemed to need was me
And I might be wiser for the lessons I've learned
I turned a blind eye to see
Ain't it bad enough that the fire burned twice
With a lover then another one
But before the smoke had cleared in the kitchen
You had to cut me with your tongue**

**Well I don't take it personally
It never gets inside my head
I don't take it personally**

**If what I didn't know was never gonna hurt me
You sure had a lot to say
And I might be wiser for the lessons I've learned
I know I'm getting older every day
All the words are waves on an ocean of sorrow
They carry away a lovers dream
And the water runs deep inside the soul
Of a spirit that once was free**

Well I don't take it personally

**It never gets inside my head
No I don't take it personally
Words get said**

**All this justifyin, look whose cryin
Keep on walkin, look whose talkin
Know I'd love to learn to let it go
All these echos runnin everyplace
I jump to meet me face to face
Freeze my breath and all the rest
Chill me to the bone**

**We'll I don't take it personally
It never gets inside my head
I don't take it personally
I never let it get to me
I don't take it personally**
