

Things I should Have Said R. Hogan

**I remember hot summer days
When we were young and we used to play
I never got a chance to thank you then
And I wish we could go back there again
I turned around and then you were gone
But you know it doesn't seem all that
long
since you showed me how and took me in
For what it's worth, I'm the same as I
was then**

**If I could have my way
We'd all go home again
I'd never feel the need to say
Things I should have said**

**It was back in those high school days
I looked at you totally amazed
So good to see, so hard to reach**

**And though I tried I could not speak
Such a beauty, my heart so moved
I should have sung my heart out for you**

**If I could have my way
We'd all go back again
We'd never need the words to say
Things we should have said
I'd tell you how I feel
The way I should have then
I'd never feel the need to say
Things I should have said
I'd tell you how I feel
The way I should have then
I'd never feel the need to say
Things I should have said**
